

FD Mediagroep

Disclosure Report

Date Submitted: October 24th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Sale of Data

FD Mediagroep, through its subsidiary, Company.info, is involved in processing data, including publicly available personal data, to deliver business information services. Companies processing personal public data may face risks related to privacy violations, such as misuse or lack of consent; security threats, including data breaches and inadequate protection; and legal consequences from non-compliance with data protection regulations, potentially leading to fines and lawsuits. Certified B Corps are required to make transparent their involvement in such business practices.

For more information about the company's practices to address this topic, please visit the company's webpage which is accessible [here](#).

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Company serves clients in Controversial Industries
Summary of Issue	FD Mediagroep is an information/media company for business in the Netherlands who provides advertising services. The company reported that they had worked with clients in the Alcohol, Charity lotteries, For-profit higher education, Pharmaceuticals and Fossil fuels industries. Services offered by the company can be sold to both controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In 2022, the company's revenue by companies operating in controversial industries was as follows: - 0.04% from companies in the Alcohol industry. - 0.02% from companies in the Charity Lotteries industry. - 0.76% from companies in the For-Profit Higher Education industry. - 0.25% from companies in the Fossil Fuels industry. - 0.01% from companies in the Pharmaceuticals industry.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company does not currently have a position on working with clients in controversial industries.
