Disclosure Report

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Litigation, Arbitration, and/or Penalties

Company Name	Octopus (Aurora)
Issue Date	2019-2023
Topic	Customer Litigation and Employment Tribunals
Summary of Issue	Customer litigation against Aurora relating to "injury to feelings" as a result of dismissed employees' actions. Employment tribunals brought against the company by existing or former employees; no rulings made against company. All the cases have been resolved.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The total settlement for all the cases mentioned above represents less than 0.05% of the company's annual revenue.
Impact on Stakeholders	The alleged impact related to consumer litigation was injury to feelings. The impact related to the employment tribunals was agreed ending of employees' employment and potential financial impact due to the ending of employment.
Resolution	All the reported cases were settled with voluntary payments.
Management Practices	In regards to the customer litigation, Aurora had taken action and voluntarily closed the impacted residential service in 2019, before the claims were made. The individuals allegedly involved are no longer employed by the company. As part of continuous improvement practices, Aurora has enhanced its governance and oversight controls, including appointing a new Quality Assurance Director and team. To minimise employment issues being taken to tribunal in future, Aurora reviews processes and policy after each case, and has enhanced focus on management training, recruitment, retention and staff wellbeing. The company ensures improvements are made where appropriate.
