Disclosure Report

Date Submitted: March 19th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial and Ineligible Industries

Disclosure Questionnaire Statement	
Topic	Clients in Controversial and Ineligible Industries
Summary of Issue	<p>Ecovis Wingrave Yeats has clients in the following industries: Nuclear Power or Radioactive Materials, Pharmaceuticals and Gambling.</p> <p>The types of services offered to these clients include: -Accounting, auditing and corporate tax compliance services.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the last fiscal year, 1.8% of the company's annual revenue was from clients in the Gambling industry, 0.6% from Nuclear Power or Radioactive Materials industry and 1.8% from Pharmaceuticals.
Impact on Stakeholder(s)	<p>Companies that work with clients in controversial industries can directly or indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>Companies offering certain types of services and products to controversial clients are required to have at minimum a grievance/complaints mechanism and a whistleblower protection policy.</p>
Implemented Management Practices	<p>Ecovis Wingrave Yeats has the following mechanisms in place to manage the risks associated to serving clients in the controversial industries:</p> <p>Grievance/complaints mechanism. This is accessible to the public through a grievance/complaint channel available on the company's website. A formal grievance procedure has the following steps:</p> <ul style="list-style-type: none">• Deal with grievances fairly and consistently• Investigate to get as much information as possible• Allow the employee/stakeholder to bring a relevant person to a grievance 'hearing' – a meeting where the company will hear all the evidence to make a final decision

	<ul style="list-style-type: none">• Give everyone a chance to have their say before making a decision• Take actions and make decisions as soon as possible• Allow an employee/stakeholder to appeal against the grievance outcome <p>The company will inform the outcome in writing. The employee/stakeholder will also be offered the right of appeal, should they feel the outcome does not resolve the problem, or at any stage of the grievance procedure, was wrong or unfair. The company can use mediation at any stage. Mediation involves an independent, impartial person working with both sides to find a solution. The mediator can be someone from inside or outside the firm. Both sides will need to agree to mediation. The employee/stakeholder can also talk to their trade union, if they have one, for advice and support. Under data protection law (UK GDPR) the company will obtain consent before sharing any provided information. This may require anonymizing some data before sharing.</p> <p>Whistleblower Protection Policy. The policy includes the company's commitment to protecting whistleblowers from retaliation. The firm will take appropriate action to protect the individual from any harassment, victimisation or bullying. Stakeholders who raise a genuine concern under this policy will not be at risk of losing their job, nor will it influence any unrelated disciplinary action or redundancy procedures. The firm has a zero-tolerance policy towards any form of retaliation against whistleblowers. If any harassment, victimisation, or bullying of a whistleblower is identified, the firm will take immediate and stringent action against the responsible parties. This may include disciplinary measures, up to and including termination of employment, and potential legal action if warranted. The firm ensures that the whistleblower's identity remains confidential as much as possible. However, if it becomes necessary to disclose the whistleblower's identity to effectively address the concern, the Whistleblowing Officer will communicate with the individual to discuss further steps before proceeding.</p>
