Level of Impact Focus

Describe your company's approach to creating positive impact.

This is an unweighted question that will not impact your score and is asked only for research/benchmarking purposes. Ocreating positive social or environmental impact is not a focus for our business We occasionally think about the social and environmental impact of some aspects of our business, but not frequently. O We frequently consider our social and environmental impact, but it isn't a high priority in decision-making. O We consistently incorporate social and environmental impact into decision-making because we consider it important to the success We treat our social and environmental impact as a primary measure of success for our business and prioritize it even in cases where it may not drive profitability. Points Available: 0.00 **Mission Statement Characteristics** Does your company's formal, written corporate mission statement include any of the following? A formal written corporate mission statement is one that is either publicly facing or formally shared with the employees of the company. Please check all that apply. No social or environmental commitment $lue{lue}$ A general commitment to social or environmental responsibility (e.g. to conserve the environment) A commitment to a specific positive social impact (e.g. poverty alleviation, sustainable economic development) A commitment to a specific positive environmental impact (e.g. reducing waste sent to landfills through upcycled products) A commitment to serve a target beneficiary group in need (e.g. low-income customers, smallholder farmers) We have no written mission statement

Description of Positive Environmental Product / Service Impact

How would you describe the positive outcome for the environment created by your product/service?

Our product notifies users of leaks and floods. By learning of floods early, we can stop damage before it gets too big. Flood damage costs property owners tens of thousands of dollars in repairs and requires many materials, all of which have a carbon footprint. By learning of leaks early, we give users the power to find the problem early and prevent wasted water. This also prevents the costs and carbon foot print associated with treating, transporting and heating that water.

Points Available: 0.00

Environmental Product or Service Impact

Is the environmental impact you've described part of your products' or services' impact (excluding packaging), or is it a part of the way that your company operates?

Companies should earn revenue from the product or service that has an environmental impact. Please do not include pro bono efforts within this section.

• The impact is created by a revenue-generating product/service line (e.g. selling non-toxic cleaning products, sustainability consultancy)

O The impact is created by the company's daily operations (e.g. using non-toxic cleaning products in the company's headquarters) and not the core product/service

Environmental Product Benefits

In what way or ways does your product/service conserve the environment?

Please select ONE option per product line. You may select an additional option if your product line has two separate environmental attributes.

Provides or is powered by renewable energy or cleaner-burning energy than market alternatives (e.g. solar panel manufacturers/installers, hybrid vehicles)

Conserves or diverts resources (including energy, water, materials, etc.)

Conserves or preserves the well-being of land and/or animals (e.g. land protection or reforestation services, sustainably harvested agricultural products)

Reduces or is made of less toxic/hazardous substances (e.g. brownfield remediation services, organic certified food, non-toxic cleaners)

Educates, measures, researches, or provides information to solve environmental problems (e.g. environmental consulting or auditing)

Resource Conservation Overview

Tell us more about how your product or service reduces energy, GHG emissions, water and/or waste.

Our product identifies leaks and floods and notifies users to find and fix these leaks. Not only do these notifications reduce wasted water, they also eliminate the associated energy and costs with treatment and heating.

Points Available: 0.00

Direct Impact on Resource Conservation

Is resource conservation a direct positive environmental impact of your product or service?

Yes

ONo, it is an indirect result of one of the other answers selected in the question "Environmental Product Benefits"

Points Available: 0.00

Environmental Education / Information Overview

Tell us more about how your product or service educates, quantifies, or provides strategic advise to solve environmental problems

Our product shows users what their water usage is and when. This can help users understand their water usage patterns so that they can make educated efforts to reduce their water usage. Our product also notifies users about small and large leaks, empowering them to correct the issue. Small leaks can often go unnoticed for years as they often end up in the drain and don't cost enough money to warrant an investigation.

Product or Service Focus on Environmental Education

Is environmental education a direct and revenue generating product or service?

Answering affirmatively will opt you into additional sections of the B Impact Assessment with more specific questions about this Impact Business Model.
