

The Brave App

Overdose Detection Designed *for* and *by* People Who Use Drugs

A lifeline for anyone who is using drugs alone to request remote supervised consumption and anonymous overdose support.

You Don't Have to Use Alone

The Brave App connects you to a caring Supporter, wherever and whenever you use drugs.

- ✓ Person-to-person connection
- ✓ Community-based rescue options
- ✓ No judgment, just love

1. Download The Brave App on your Android or Apple device.
2. Set up a Rescue Plan that details what should happen if you become unresponsive during the call.
3. Connect to a Brave Supporter before you use drugs.
4. Your Supporter will stay on the line with you until you feel you're safe.
5. If you become unresponsive, your Supporter will send help according to the instructions in your Rescue Plan.

Overdose Detection on Your Terms

You are the expert on what you need. It doesn't matter why you use drugs. We only care about helping you stay safe.

"[The Brave App] is great. It helps me stay in touch with my community when I'm using and helps me feel supported."
- Anoo G.

Anonymity

You don't need to have an account or share any personal info to use The Brave App.

Autonomy

You call 100% of the shots. You tell us when to worry and how to send help.

Privacy

Brave doesn't collect your data and we never will.

Practice Safe(r) Drug Use

If you use drugs or love PWUD, get The Brave App. It's like virtual overdose prevention in your pocket.

Available in the App Store and Google Play.
