Disclosure Report

Date Submitted: July 26th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial and Ineligible Industries

Topic		Clients in Controversial Industries
Summary of Issue		Gustavo Penna Arquiteto & Associados (GPA&A) is an architecture and urban planning firm with expertise in developing and implementing medium and large scale projects in Brazil. Over the last 5 years the company has had clients operating in the Alcohol, Mining and Prison industries. Services to the prison industry involved the design of a restaurant within a prison through a third party. Services to the client in the alcohol and Mining industry were related to the design of a new office site and a memorial respectively. Services offered can be sold to both clients in controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)		Clients operating in the Alcohol industry represented 18% of the company's FY2023 revenue. Clients operating in the Mining industry represented 17% of the company's FY2023 revenue. Revenue from projects for the Prison industry was through a one-off engagement representing 1.27% of the company's FY2021 revenue. The company has concluded this project and is no longer engaged with this industry.
Impact on Stakeholder(s)		Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices		GPA&A has adopted policies to ensure that their services do not cause harm to people or the environment. The company has a Code of Integrity and Ethics, and carries out an analysis of all proposed projects. Their process includes assessing the

social and environmental impacts of each project, often rejecting work that is not in line with their values. This analysis ensures that their projects, regardless of sector, promote sustainable practices, integrate innovations that avoid waste and increase results for clients and partners.
