**2019 Aggregated Scoring Methodology, Summary and Brand List**

Aboca scored an overall 113 out of 200 total available points. The minimum verified score required for B Corp Certification is 80. Learn more about the [B Impact Assessment](#).

Additionally, all three individual entities scored above the 80 point threshold for B Corp Certification and are therefore all Certified B Corporations.

**Subsidiaries**

As the B Corporation Certification is a company-level certification, the assessment of a Parent Company is required to include its subsidiaries in which it owns >50% of the shares and has controlling interest. Depending on the operations of the certifying company, Parent Companies may roll up their subsidiaries into a single assessment or assess separately.

Regardless of whether a Certified Parent Company's subsidiaries are assessed together or separately, only distinct subsidiaries that B Lab has determined independently meet the performance requirement for certification are eligible to use the Certified B Corporation logo and refer to themselves as Certified B Corporations. Below is a list of the independent entities that have met the 80 point performance requirement.

- Aboca
- Apoteca Natura SpA
