

Score Aggregation Methodology

Nespresso 2025

As the B Corporation Certification is a company-level certification, the assessment of a Parent Company is required to include its subsidiaries in which it owns >50% of the shares and has a controlling interest. Depending on the operations of the certifying company, Parent Companies may roll up their subsidiaries into a single assessment or assess separately.

Regardless of whether a Certified Parent Company's subsidiaries are assessed together or separately, only distinct subsidiaries that B Lab has determined independently meet the performance requirement for certification (i.e. score of 80+ points) are eligible to use the Certified B Corporation logo and refer to themselves as Certified B Corporations.

Aggregated Scoring Methodology

NESTLE NESPRESSO S.A. and its subsidiaries were required to be assessed in the B Impact Assessment and undergo a review by B Lab staff. The entities were divided into 5 assessments, and the overall score was calculated using a weighted average based on headcount. The assessments are as follows:
