Disclosure Report

Date Submitted: October 3rd 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Suppliers in Conflict Zones

| Topic | Company has suppliers located in Ukraine |
|---|--|
| Summary of Issue | The Abbi Agency, based in Nevada (USA), provides full-service marketing and communications services. The company has five Tier 1 suppliers located in the Ukraine, which is currently an active war zone. The suppliers provide UX/UI design and development services. |
| Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected) | In the FY 2023 2% of expenses came from this supplier. |
| Impact on Stakeholders | <p>Business activities located in conflict zones are considered high-risk as they are more likely to cause or contribute to the conflict and/or sociopolitical instability.</p> <p>Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's workers and other potential human rights violations are at risk.</p> |
| Implemented Management Practices | As part of the suppliers' ongoing assurance practices in order to ensure that the company's purchases are not tied to the conflicts in those regions, The Abbi Agency has the ability to vet and audit its suppliers. The company conducts periodic audits/reviews to ensure continued adherence to ethical practices, including regular checks of their operational procedures, environmental and social impact, and any new certifications or compliance updates. |
| Management Comments | <i>At The Abbi Agency, we take a thorough and ongoing approach to supplier vetting and hiring to ensure that our partnerships and employees align with our company values. Our process begins with an in-depth interview during which we assess their operational practices, ethical standards, and alignment with our commitment to social impact. We also review their qualifications, including resumes and any relevant documentation of their work history and compliance with industry standards. For hiring, we also will check references prior to bring them onboard. We have long-standing relationships with many of our Ukraine team, having worked with them well before the current conflicts began.</i> |
