

KANSANDKANDY | GROUP
WHOLESALE * PROPERTY * CHARITABLE TRUST

WE HAVE EARNED OUR B CORPORATION CERTIFICATION

At Kans and Kandy Group we do and always have taken our role and responsibilities in the sectors and communities we operate in, very seriously.

We are delighted to announce that we have earned our B Corporation Certification. Over the last 18-months we have undertaken a challenging journey to successfully balance introducing global best practices and we are honoured that our values, beliefs, and the way we do business have been recognised.

As one of only 6400 organisations across the globe, we are keeping company with world leading socially responsible companies and are privileged to be alongside such inspirational brands such as the B Corp pioneers, Patagonia.

Within Kans and Kandy Wholesale, we understand the impact the Health and Beauty industry can have both environmentally and logistically and we appreciate how hard our partners work to offset any negative effects.

We work with global brands to offer solutions which prevent obsolete stock going to landfill, reducing emissions through responsible and planned transportation making a positive difference to the environment and planet.

We continue to explore partnerships in our **Kans and Kandy Property** business with companies that share our values and lead the way in sustainability. We are justifiably proud of our involvement in supporting projects generating sustainable energy and recycling plastic on a significant scale.

Giving back to those less fortunate than ourselves forms a key part of our values and over the last 22 years the **Kans and Kandy Charitable Trust** has benefited each year from our contribution of 10% of **Kans and Kandy Wholesale** net profits. A wide range of charities put our donations to some remarkable uses, changing the lives of people both from our local communities in the North East of England but also across the world in places as far afield as India, Pakistan, Africa and Peru.

You can read more [here](#).

OUR WORK IS NOT DONE.

This is not a philanthropic gesture. We are totally committed to these values. We will continue to improve and introduce new ways to live and work and make our contribution towards the B Corporation mission:

We need an inclusive, equitable, and regenerative economic system for all people and the planet. Let's use business as a force for good.

We are always happy to talk through how we partner with companies to make positive environmental and economic impact and help them achieve their own environmental and sustainability goals.

With kind regards,

Ian Marley
