

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE CATEGORY	Significant layoffs of >20% of workforce
ISSUE DATE	2020
TOPIC	Significant layoffs due to COVID-19
SUMMARY OF ISSUE	As a result of the COVID-19 pandemic and related business headwinds, the company laid off 30% of its workforce.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	One round of layoffs only. 3 of 10 employees were laid off, representing 30% of the company's employees at that time.
IMPACT ON STAKEHOLDERS	Primary impact was loss of employment for affected employees. This was mitigated through management practices listed below.
IMPLEMENTED MGT PRACTICES	<p>"The 3 employees were let go with severance. Roompack paid severance pay, ranging from 2 weeks to 3 months pay, depending on tenure. Employees who had company-purchased electronics were permitted to keep those electronics (computers, cell phones), and the company contributed \$1,000 per person who was covered by its healthcare plan to help with healthcare continuation costs.</p> <p>One out of the three already had an offer for a new job and accepted that job offer upon termination. For the other two, the company wrote letters of recommendation and actively sought available jobs for/with them. Roompack had open dialogue with them throughout the process and they had new job offers in a short timeframe. Helping them find new jobs was the company's professional priority at the time. The company also directed all 3 to apply for unemployment benefits, which was relatively generous in the United States at the time.</p> <p>The company has made the following changes. It has decided on the following:</p> <ul style="list-style-type: none">-To keep its staff as small as possible.-To make our company more "recession-proof", it plans to stay small so that there are fewer paychecks to worry about.-The company exercises transparency with its financials — it reviews its P&L monthly, so that the whole team knows the financial state of Roompack and can all have a say in difficult decisions.-Roompack is building up a savings account to help us weather difficult situations in the future."
