

WMH&I

Disclosure Report

Date Submitted: February 13th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒

Business in Conflict Zones	☐	☒
Child or Forced Labor	☐	☒
Negative Environmental Impact	☐	☒
Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Others - Disclosure Industries

Topic	Clients in Controversial Industries
Summary of Issue	WMH&I is a branding agency that provides advertising, designing and marketing services. The company has had clients in controversial industries such as fossil fuels (non-coal/oil sand), pharmaceuticals and alcohol.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the fiscal year of 2023, an estimated total of 56% of revenue was generated through the clients in controversial industries as mentioned above.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	WMH&I reviews all clients in sensitive industries and makes a decision, at Board Level, to determine if it would pursue a business with a potential client. This has resulted in the company turning down several business opportunities in the recent past. The decision of whether to go ahead with a project is based on the assessed impact of the work. WMH&I pursues businesses with clients in controversial industries if the reason is to "help improve" the clients/consumer behavior in relation to making a positive social impact.
Management Comments	We work extensively with Castrol in the shifting the company away from internal combustion engine vehicles towards an Electric Vehicle future

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Significant Layoffs of >20% of the Workforce

WMH&I experienced significant layoffs of more than 20% of the workforce within the last five years. Certified B Corps are required to make transparent when such practices have occurred.
