

Barretto-Co.

Disclosure Report

Date Submitted: November 8th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Others - Company serves clients in Controversial Industries

Topic	Company serves clients in Controversial Industries
Summary of Issue	Barretto-Co. is a company that provides Services to clients in controversial industries such as Alcohol. They provide services to both controversial and non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	3% of the client revenue has been from clients in the Alcohol industry
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company conducts discussions with potential clients' stakeholders and assesses their services, goals, history, mission, and values before agreeing to work with a new client. The company strives to partner with clients who are committed to social and environmental responsibility. The company avoids working with clients involved in unethical practices such as child or slave labor, animal product testing, non-compliance with local regulations, and violation of international human rights and labor standards. In the alcohol industry, the company creates marketing communications in support of the local craft beer industry and independent breweries, all of whom promote responsible drinking.
Management Comments	Our members actively contribute to their communities by holding fundraisers and collaborating with local organizations throughout the year. We advocate for diversity, equity, and inclusion within and beyond our industry, and help drive consumer awareness and tourism that creates jobs and strengthens local economies.
