

Faversham House Holdings Limited

Disclosure Report
Date Submitted: March 6th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Company works with clients in the mining and water utilities industries.
Summary of Issue	Faversham House Holdings Limited is the non-trading holding company for Faversham House Ltd. Both are UK companies. Faversham House Ltd is a media company publishing digitally, high-quality data, information, insight and analysis. It also runs impactful exhibitions, conferences and other events for industry professionals including those in the mining and water utilities industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In 2022, the company's revenues generated from services provided to clients in the mentioned industries were: 1. Mining: 2% 2. Water utilities: 35%
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	Through independent journalism; acting as a "critical friend" to the industry; the Company provides information to their clients in the utilities sector (water, gas, and electricity industries) that enables them to improve their performance. This includes: benchmarking performance, sharing best in class practices, etc. Additionally, the Company's services are restricted to informed business professionals within the industry and its supply chain. Retail consumers (the purchasers of their services) are not marketed to through the Company's work. The company doesn't have client screening procedures as the vast majority are consultants/vendors selling equipment and services to the utilities market. The company operates an ethical marketing policy and as a values-based organisation, reviews clients they consider to be potentially controversial.
