## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

<b>Impact on Stakeholder(s)</b>	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>

## Disclosure Questionnaire Category: Operations located in Conflict Zones

<b>Topic</b>	Company has suppliers located in Conflict Zones
<b>Summary of Issue</b>	Tribes Digital LTD is a UK-based digital solutions company that collaborated with suppliers in Ukraine in 2024 and is no longer working with them. The supplier provided a team of software developers. <a href="#">Ukraine</a> is classified as a conflict zone by the Global Conflict Tracker due to the ongoing war resulting from the Russian invasion.
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	In the last fiscal year, 0.52% of the total cost came from conflict zones.
<b>Impact on Stakeholders</b>	<p>Business activities located in conflict zones are considered high-risk as they are more likely to cause or contribute to the conflict and/or sociopolitical instability.</p> <p>Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's workers and other potential human rights violations are at risk.</p>
<b>Implemented Management Practices</b>	<p>The company has implemented a supplier screening process that includes discussions about the location and local circumstances. This process features a supplier questionnaire addressing wages, worker benefits, environmental policies, and compliance with local laws. All suppliers are required to adhere to the company's Anti-Corruption Policy and Code of Conduct, which includes zero tolerance for bribery, kickbacks, and corruption; due diligence before entering new business relationships to ensure ethical alignment; and a whistleblowing mechanism for confidentially reporting any corruption concerns.</p> <p>The company does not plan to work with suppliers in conflict zones. If engagement with such suppliers becomes necessary, the company will continue to apply its due diligence, screening, and ethical requirements.</p> <p>The company has partnered with a charity called Blue Hope to explore ways to support developers affected by conflict whenever possible.</p>
