

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE CATEGORY	Other
ISSUE DATE	August 2021
TOPIC	Clients in Controversial Industries
SUMMARY OF ISSUE	The Delphi Group is a consultancy that offers sustainability services to companies in the fossil fuel and mining industry.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	The company has been working with clients in the fossil fuel industry since 2018 that accounts for an average of 13% of annual revenue.
IMPACT ON STAKEHOLDERS	The company works with these companies in both their upstream and downstream services in offering sustainability consulting advice related to their environmental and societal impact. They provide services in the field of sustainability, climate change, the green economy, and cleantech and innovation to clients in the fossil fuel industry.
IMPLEMENTED MGT PRACTICES	Delphi is targeting their expertise and work at clients with net zero / science based climate targets. The company works with high GHG emitting clients only when their efforts to reduce environmental impacts are backed by targets, rigorous quantitative standards, strong governance, and public transparency. Delphi tracks the GHG reductions that are quantified by their projects, as well as the clean tech investment activity catalyzed by their work, and they track the investment and jobs that are defined / quantified in their green and circular economy work.
REPORT	The company's ideas, work and client examples are kept here on their website and updated regularly: https://delphi.ca/blog-and-publications/
RELATED INCIDENTS (YES/NO)	Delphi's mission is to transform the way organizations generate value to make our world better - which means we work with clients that are at very different stages in their sustainability journey. We are always clear with clients that we believe integrating environmental and social considerations into their business strategies will unlock value, and we work with them in a trusting role to nurture that outcome.
