Disclosure Report
Date Submitted: March 19th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Energy and Emissions Intensive industry

Grupo RFG is involved in the production/sale of products, or is part of an industry that can potentially be classified as energy and emission-intensive, meaning that they are more likely to have significant impacts on the environment based on their carbon emissions associated with their operations and their contribution to climate change. Certified B Corps are required to make transparent their involvement in such activities or industries.

Any party aware of specific company practices that have had a negative impact related to their involvement in the sensitive industry, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Water Intensive industry

Grupo RFG is involved in the production/sale of products, or is part of an industry that can potentially be classified as water intensive, meaning that they are more likely to have significant impacts on the environment, such as water stress or depletion of local water sources if water use is not appropriately managed. Certified B Corps are required to make transparent their involvement in such activities or industries.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	The Company has clients in the Water Utilities Industry. The company has been serving clients in these controversial industries by collecting recyclable material from the government water utility company that provides water to the municipality to recycle. Their services can also be sold to non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In FY2022, 2% of the company's revenue comes from the Water Utilities Industry.
Impact on Stakeholders	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>
Implemented Management Practices	The company collects and recycles office paper that is discarded. The company also collects broken or discarded plastics from maintenance and offers environmental training for all their staff on how to dispose properly for recycling. The company has no position on working with clients in controversial industries. The company does not screen their clients as their service is unrelated to what the client does.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Company workers are prisoners

Topic	Prison Labor
Summary of Issue	Grupo RFG is a waste management company which also manufactures and sells products made from recycled materials in Cordoba, Argentina. The production of the company's products was carried out with prison labor through a contractual relationship with a public penitentiary until April 2022; a practice which is not in line with B Lab's Prison Industry and Labor Controversial Issue Position Statement .
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In 2022, <1% of the company's revenue came from the sales of recycled wood baskets produced in prison. The company has declared to stop work with said supplier and is committed to no longer work with suppliers associated with prison labor.
Impact on Stakeholders	While some stakeholders have indicated that prison labor is inherently unjust or coerced, others have highlighted the potential benefits of such programs, such as the potential to assist people who are incarcerated to reintegrate into society. Among the risks and issues involved in prison labor arrangements highlighted by ILO are coercion, wages, work conditions, health and safety and post-release benefits.
Implemented Management Practices	The contract with the penitentiary expired on April 19, 2022 and since then the company's production is carried out by Grupo RFG personnel.
Other Management Comments	"The batch of manufactured products by inmates was of 15 recycled wood baskets, assembled by the carpentry unit of the prison service. Of these baskets, 3 were sold and the other 12 are for our own use in the company. The total of such sale is equivalent to much less than 1% of the company, exactly 6 months ago (\$152,890.73 ARS)."
