Disclosure Report

Date Submitted: July 31st, 2026

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Tax Advisory Services and Wealth Planning Structure

The current B Corp Certification assesses a company's risk (potential negative impacts) separately from its positive impacts. B Lab's risk standards are additional minimum requirements that companies in controversial industries and/or practices must meet in order to be eligible for B Corp Certification under V1.6. Risk standards are a necessary method to maintain credibility, manage risk, and achieve the impact B Lab seeks in the world.

Cognitive Law Limited is directly involved in the Tax Advisory Services and Wealth Planning Structure Industry; an industry which B Lab requires additional minimum standards. During this assessment, it was confirmed that Cognitive Law Limited fully meets the minimum requirements for the Tax Advisory Services and Wealth Planning Structure as outlined in the [Guidance for Eligibility Concerns and Minimum Requirements under V1.6](#) link.

Cognitive Law is committed to ensuring that the advice we give reflects the true, actual financial position of our clients, and that it does not facilitate tax evasion or aggressive, artificial tax avoidance. Specifically, we commit to the following:

- The advice we provide appropriately reflects the actual income, assets, and operations of the client over time, and in the jurisdiction(s) in which they arise.
- We do not design, recommend, or facilitate arrangements intended to artificially relocate income, assets, or operations to a jurisdiction where they do not genuinely arise, or to conceal beneficial ownership or the true source of wealth.
- We only advise on the lawful and legitimate use of reliefs, exemptions, and allowances available under UK law for inheritance tax and succession planning purposes.
- Where a client's objectives appear to go beyond legitimate tax planning into aggressive avoidance or evasion, we decline to act or refer the client elsewhere, and may terminate the engagement.
- Our own engagement with HMRC and other UK tax and regulatory authorities is conducted openly, honestly, and in a manner consistent with the principles above. We do not lobby for, or advocate on behalf of clients for, changes to tax legislation.

B Lab's Public Complaints Process
