

## **DISCLOSURE MATERIALS**

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

## DISCLOSURE QUESTIONNAIRE

Company Name: The Salve Health Date Submitted: 05/12/2023

Industries & Products	Yes	No

PROVIDED BY: The Salve Health UPDATED AS OF: 05/12/2023

Company has clients in the pharmaceutical industry  The Salve Health is a global medical affairs consultancy that offers strategic consultancy and tactical solutions to medical affairs teams in pharmaceutical, medical device or biotech compani or healthcare charities. Tactical solutions can include but is not limited to support with publication meetings and events, and medical education initiatives.
tactical solutions to medical affairs teams in pharmaceutical, medical device or biotech compani or healthcare charities. Tactical solutions can include but is not limited to support with publicatio meetings and events, and medical education initiatives.
In the last fiscal year, 95% of the company's revenue was from the pharmaceutical industry.  In the last fiscal year, 95% of the company's revenue was from the pharmaceutical industry.  In the last fiscal year, 95% of the company's revenue was from the pharmaceutical industry.
Companies serving clients in controversial industries have the potential to further the negative social and/or environmental impacts of the controversial industry.  B Lab recognizes that companies that earn revenue from controversial industries may require the development of specific risk standards in the future to ensure that companies that work with clients in controversial industries are not contributing or profiting from the harmful impacts of the industry.
The Salve Health Ltd complies with all industry-standard Codes of practice, recommendations and guidelines. These include the Association of British Pharmaceutical Industry (ABPI) Code on Practice in the UK (administered by the the Prescription Medicines Code of Practice Authority [PMCPA]), and regional Codes of practice such as the EFPIA Code (administered by the European Federation of Pharmaceutical Industries and Associations [EFPIA]) and the IFPMA Code (administered by the International Federation of Pharmaceutical Manufacturers and Associations [IFPMA]). These Codes cover the promotion of prescription medicines to patients and healthcare professionals and the interaction of pharmaceutical companies with healthcare professionals, healthcare organisations and patient organisations. Industry-standard Codes of practice have been developed with the intent of guaranteeing that activities/materials commissioned by pharmaceutical companies comply with the most stringent ethical principles on professionalism and responsibility. Codes apply to all types of communication and interaction (traditional and digital).  Similarly, industry guidance exists to support the development of medical publications. The International Society for Medical Publication Professionals (ISMPP) has since 2009 developed Good Publication Practice (GPP) guidance, GPP-2022 is the third and current iteration. The Salve Health Ltd senior team hold the ISMPP Certified Medical Publication Professional.  The Salve Health team is regularly trained on industry-standard Codes of practice and guidelines and proactively advises clients on compliance best practice. The Salve Health Ltd also proactively advises clients if Code breaches are observed. If clients of The Salve Health Ltd either intentionally or unintentionnally execute activities that breach industry standard Codes of practice or guidelines The Salve Health Ltd 1) advises their clients of relevant compliance breaches where found, clearly states the risks involved in continuing with non-complia
working on non-compliant activities.
