Disclosure Report

Date Submitted: September 3rd, 2024

## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Company serves clients in Controversial Industries
Summary of Issue	ActionFunder is a company that provides services related to community fund design. The company has served clients in the alcohol, fossil fuel (coal and oil sand) and water utilities industries by offering access to a tech platform that helps community groups in need of fiscal support and consultancy services for community fund design, delivery, and distribution. The company's services can be sold to both controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	For the fiscal year 2023, the revenue generated from clients in controversial industries accounted for 46% of the company's overall revenue: <ul style="list-style-type: none"><li>- Clients operating in the alcohol industry represented approximately 24%.</li><li>- Clients operating in the fossil fuel (others excluded coal and oil sand) industry represented approximately 16%.</li><li>- Clients operating in the Water utilities industry represented approximately 6%.</li></ul>
Impact on Stakeholder(s)	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact on stakeholders of those businesses by enabling their business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>Currently, B Lab does not have specific requirements for companies with clients in this/these industries. However, Certified B Corps are required to make transparent their involvement with such clients. As B Lab continues to evolve its standards and due diligence approach for companies with Clients in Controversial Industries, the updated criteria will be shared with the company once they are finalized.</p> <p>B Lab recognizes that the company began its verification process prior to B Lab developing standards for Clients in Controversial Industries, and, therefore, the company will be</p>

	<p>required to meet the new standards by their next recertification. Additionally, as of the date of this disclosure, the company has committed to not working with any new companies or projects involved in the controversial industries in question.</p>
<b>Implemented Management Practices</b>	<p>The company has a policy of not working with companies involved in Tobacco, Arms, or Pornography. For companies in the Fossil Fuel and Gambling industries, the decision to work with them is taken by the company's board. When considering working with sensitive industries, the company conducts an open and transparent consultation with its internal team, conducts a survey of their non-profit community to determine if they want to receive funds from such industries and reviews the board's assessment. The company's services aim to remove barriers between worthwhile causes and funding from companies; to ensure that the company reviews that their clients are not involved in green-community washing and follows the <a href="#">Advertising Standards Authority</a> guidelines.</p>
