

Mirow & Co.

Disclosure Report
Date Submitted: July 3rd, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Disclosure Industries

Topic	Clients in Controversial Industries
Summary of Issue	<p>Mirow & Co. is a strategic consultancy firm, offering a range of consulting services in the area of Marketing, Sales & Pricing, Digital Solutions, Operational Performance, Developing Innovative Business Models, People & Organization Transformation, Turnaround & Mergers and acquisitions (M&A), and Climate Adaptation & Sustainability.</p> <p>The company has had clients from the Fossil-Fuel (excluding coal/oil sands) industry which is deemed controversial by B Lab. The services offered to the clients relate to management consultancy, aiming at financial and operational improvements.</p> <p>Mirow & Co. does not design specific services for an industry. Their services are customized to address a specific problem within each client's situational context.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the fiscal year of 2024, the company had generated less than 10% of total revenue from clients in the fossil-fuel industry.
Impact on Stakeholders	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>
Implemented Management Practices	<p>Mirow & Co. does not currently have a formal position on working with clients in controversial industries and does not have a specific policy on client due-diligence.</p> <p>The company would however turn down potential projects that are aimed at maximizing profits to the detriment of environmental protection standards.</p>
