Disclosure Report

Date Submitted: August 30th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Recalls

Issue Date	August 23, 2023
Topic	Recalls due to incorrect sterilization of products
Summary of Issue	Pladent has had two recalls in the last five years due to incorrect sterilization of their products by a supplier providing sterilization services. As a result Safescraper Twists and Soft Tissue Punches were recalled.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	<p>Safescraper Twists - The company received 2 orders from their supplier with the affected batch no., each order contained 180 pcs. The products recalled represented 0.1% of the company's revenue.</p> <p>66 customers were affected in the recall. 5 products were found with the affected lot-no. There were no reported illnesses as a result of the recalled product.</p> <p>Soft Tissue Punches - 16 products were found with the affected lot-no, which was equal to less than 0.1% of the company's revenue with 7 customers impacted by the recall. There were no reported illnesses as a result of the recalled product.</p>
Impact on Stakeholders	Safescraper Twists and Soft Tissue Punches are used for oral healthcare, there is potential harm to customers as unsterilised products could lead to customers contracting an infection.
Implemented Management Practices	<p>Pladent will continue to follow policies and practices when their manufacturer issues a recall. Pladent will recall the products from their customers and report to their manufacturer the extent of the affected products.</p> <p>Pladent follows their quality control checks when receiving products from their manufacturer and ensures products are correctly packaged and marked as sterile.</p>
Related Incidents	The cause of the recalls for Safescraper Twists and Soft Tissue Punches were due to the same contract sterilization facility. The sterilization facility falsified their records and therefore sterilization for the products could not be guaranteed.
