Disclosure Report

Date Submitted: February 20th, 2026

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Recalls

Motif Group Co., Ltd reported conducting zero mandatory and one voluntary recall in the past five years, representing 0.28% of the company's products for the same period. When a product is recalled, various stakeholders such as customers, suppliers, investors, commercial partners, and local communities may face negative impacts, including health and safety risks, financial losses, loss of trust, damage to credibility, and other inconveniences. Certified B Corps must make their recalls transparent under their B Corp Profile.

The item in question (Gaia Skirt) had a stretching defect of fabric if the item was left to drip dry as water would accumulate at the bottom of the fabric while being hang dried (such as on a clothes line). This resulted in stretching of the mid hem of the skirt. We contacted impacted customers, suggesting updated care instructions to prevent the stretching, with the option to return the skirt for a full refund. This impacted a total of 200 items produced (100 in both black and white fabric), though the issue was more pronounced in the white fabric. Overall resulted in the voluntary recall of 13 Gaia skirts with full refunds issued.

For statistical purposes, the 0.28% above represents the entire 200 item lot and not just the 13 items that were voluntarily recalled.
