

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: Talsom
Date Submitted: 12/21/2022

Industries & Products	Yes	No

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY:

Talsom

UPDATED AS OF:

12/21/2022

DISCLOSURE QUESTIONNAIRE CATEGORY	Disclosure Industries
TOPIC	Clients in Controversial Industries
SUMMARY OF ISSUE	Talsom is a management consultancy with clients in the mining and oil&gas industries. The company offers project leadership and change management activities.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	In FY2021, 3.3% of the company's annual revenue is derived from clients in the mining industry. In FY2021, 1.1% of the company's annual revenue is derived from clients in the gas&oil industry.
IMPACT ON STAKEHOLDERS	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
IMPLEMENTED MGT PRACTICES	In accordance with their ethics policy, Talsom assesses the risk and sensitiveness of each of the projects and reserve the right, on a case by case basis, not to bid on some of them. Talsom claims to partner with clients only where there is a cultural fit, especially when working with sensitive industries such as oil and gas companies. Whenever the company can, they provide their clients with ESG guidance.
