

TT Tecnosistemi S.p.A. SB

Disclosure Report

Date Submitted: January 4th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒
Biodiversity Impacts	☐	☒
Chemicals	☐	☒

Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Others - Disclosure Industries

Topic	Clients in Controversial Industries
Summary of Issue	TT Tecnosistemi is an Italian Social Benefit, IT supplier company of both hardware and software and has served clients in the Gambling industry over the last 5 years. Products and services to this client included the resale of computer equipment (eg. monitors, hard disks), servers, software licenses (such as AutoCAD, Office, Antivirus) as well as assistance and maintenance services; all of which can be sold to both clients in controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The company has had 2 clients operating in the Gambling industry, 1 of which is ongoing, representing <1% of revenue from FY2023.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	TT Tecnosistemi is committed to keeping revenue from the client in the Gambling industry to below 1% and to exit the industry by 2026. The company rejects all of the projects that are not in line with the principles of a Social Benefit Company. They have a due diligence policy to evaluate those projects which involve potential controversial sectors. The evaluation process is carried out by a committee made up of the Chief Executive Officer, the Vice President, the Commercial Director and the Technical Director. The evaluation criteria in their due diligence policy includes matters in relation to the company's structure, relationship with suppliers as well as investigations or infringements. If the client does not meet the due diligence criteria, TT Tecnosistemi does not go forward with the project. In addition,
