

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Kreston Reeves LLP UPDATED AS OF: 02/17/2023

DISCLOSURE QUESTIONNAIRE CATEGORY	Clients in controversial areas
TOPIC	Kreston Reeves LLP serves clients in the mining, fossil fuel and alcohol industries.
SUMMARY OF ISSUE	Kreston Reeves LLP provides accountancy, audit and taxation services to a variety of clients including a small minority which work in the alcohol, fossil fuel and mining industries.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	For financial year 2022 the company has earned the following revenue from clients in the following industries: • under 3% of revenue from clients in the alcohol industry • less than 1% of revenue from clients in the fossil fuel industry • between 1 & 2% of revenue from clients in the mining industry
IMPACT ON STAKEHOLDERS	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.
	B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
IMPLEMENTED MGT PRACTICES	 For clients operating in the alcohol, fossil fuel, and mining industries, the Management Board of Kreston Reeves chooses to act for clients who are actively seeking to comply with their relevant regulatory obligations. The company is committed to not acting for clients where there is an abuse of ESG factors such as human rights violations, The vast majority of clients in these areas are based in the United Kingdom and therefore need to comply with regulatory and societal ESG standards imposed. The company aims to work together with the clients to reduce any negative environmental, and social impact. As an ICAEW-regulated firm with extensive AML obligations, which now also extend to proliferation financing, Kreston Reeves LLP would not act for clients in the weapons industry and throughout its work would be actively aware of any indicators of modern slavery and human trafficking. Kreston Reeves has on boarding processes for all new clients, which are revisited every year as part of the annual assignments. These include ensuring the company fully understands the client, its ownership, and sources of funds. Kreston Reeves also considers whether there was any negative press which might indicate if there were any negative social and environmental issues. Part of this assessment includes a review by a Client Acceptance Panel if the client operates in a sensitive industry which is considered by a group of senior partners to evaluate if it is appropriate for the firm to act. All services and advice are aimed at ensuring compliance with the client's regulatory requirements.
