Disclosure Report

Date Submitted: September 10th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Litigation, Arbitration, and/or Penalties

Issue Date	2022 - 2025
Topic	Litigation, Arbitration, and/or Penalties related to labor issues
Summary of Issue	In the past 5 years, the company was subject to 3 penalties by the Employment Court of Paris related to wrongful termination and the validity of economic dismissal. 1 case has been settled, and 2 are currently pending.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	For the case that was settled by payment, the value was less than 1% of the company's total revenue in the last fiscal year. The estimated value of payment for the pending cases would be between 1% - 5% of the company's total revenue in the last fiscal year.
Impact on Stakeholder(s)	The primary impact related to labor issues are the financial impact on former employees (3).
Resolution	1 case is closed through an out-of-court settlement by the company. The remaining cases are currently pending a final resolution.
Implemented Management Practices	The company conducts a bi-annual Workload Assessment to measure employee capacity, workload distribution, and stress levels. Management uses the results to ensure fair and sustainable working conditions and to address employee concerns at an early stage, while reducing the likelihood of similar issues arising in the future.
Related Incidents (Yes/No)	Yes
