## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Operations located in Conflict Zones

Disclosure Questionnaire Category: Operations located in Conflict Zones	
Topic	Company operates in Conflict Zones
Summary of Issue	<p>Enviro-Stewards, an environmental engineering consulting firm headquartered in Ontario, Canada, is dedicated to identifying and implementing measures that promote resource conservation and waste reduction. All of their project work is based in North America.</p> <p>Their development work through the Safe Water Social Ventures (SWSV) component of Enviro-Stewards Inc operates in East Africa.</p> <p>SWSV collaborates with local partners, Feat Africa, and Embrace Uganda whose work supports African communities in Uganda and the Democratic Republic of the Congo (DRC) by constructing and installing water purifiers and offering training on their usage. At present, four water purifiers are operational in Uganda and one in the DRC. In 2017, Enviro-Stewards had four manufacturing facilities in South Sudan that are currently shuttered. The company is not operating there currently, but it intends to restart operations there in 2025 if the current trend towards peace continues.</p> <p>According to the Global Conflict Tracker, the DRC and South Sudan are areas of conflict due to internal conflict and political instability.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	Enviro-Stewards founded & shares operations with Safe Water Social Ventures (SWSV), donates financial capital to SWSV, and dedicates time to SWSV's work; SWSV is not within the scope of the B Lab certification. During the fiscal year 2023, the company invested 2% of its revenue in projects with SWSV. In the last five years, the company has invested approximately a maximum of 2% of its revenue with SWSV and has dedicated approximately five to ten hours weekly to supporting SWSV projects.
Impact on Stakeholders	<p>Business activities located in conflict zones are considered high-risk as they are more likely to cause or contribute to the conflict and/or sociopolitical instability.</p> <p>Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could</p>

	undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's workers and other potential human rights violations are at risk.
<b>Implemented Management Practices</b>	During the outbreak of the civil war in South Sudan, Enviro-Stewards assisted SWSV's local partner, Feat Africa, in re-establishing operations in Uganda. Enviro-Steward's staff support work includes fundraising to help rural families purchase water purifiers for their homes, finding sponsorships, and helping purchase a truck to transport filters. Enviro-Stewards have traveled to Uganda to visit SWSV projects (approximately once per year), provided supplemental training, and have created teaching tools to support the local social ventures.
<b>Report</b>	More information about the project <a href="#">here</a> .
<b>Management Comments</b>	Enviro-Steward involvement aims to have a positive impact by providing sustainable access to safe water. SWSV aims to reduce conflict and sociopolitical instability by creating jobs and decreasing poverty through reduced spending on water-related illnesses.
