

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE CATEGORY	Recalls
ISSUE DATE	1) March 2018 2) May 2020 3) January 2022 4) January 2023
TOPIC	Recalls due to: 1) Shattered Glass Bracelet 2) Popcorn bag flammability risk 3) Wheat Allergen 4) Pajama flammability risk
SUMMARY OF ISSUE	Uncommon Goods has had four recalls in the last five years due to product quality, flammability risks, and/or allergens.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	Recall quantities ranged from 125 units to 25 thousand units, depending on product. No recalls cost the company more than 1% in revenue. No injuries, illness, or stakeholder consequences were reported.
IMPACT ON STAKEHOLDERS	No injuries, illness, or consumer/user consequences were reported in any of the recall instances.
RESOLUTION	The recalled items were removed from the market, and replacement products were subsequently released as applicable. Refunds or replacements were distributed to customers. All four cases were public and recall notices or statements were published on the company's website and/or with the Consumer Product Safety Commission.
MANAGEMENT PRACTICES	More rigorous product testing was implemented, packaging and suppliers were changed, additional product testing was implemented, vendor communication increased, and imported sleepwear products test reports are reviewed to ensure correct testing protocols were performed by the labs.
