## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

### **B Lab's Public Complaints Process**

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

**This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.**

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Operations in Conflict Zones

Disclosure Questionnaire Statement	
<b>Topic</b>	Company has operations in conflict affected countries
<b>Summary of Issue</b>	<p>Delft Imaging supplies imaging equipment and artificial intelligence and provides training for these solutions to multiple countries across the world, including the following countries: Afghanistan, Syria, Democratic Republic of Congo (DRC), Iraq, Sudan, Ethiopia, Libya, Nigeria, Chad, Lebanon, Palestine, Yemen, Azerbaijan, Burkina Faso, Guinea-Bissau , Mali, Mozambique, Niger, Nigeria, Pakistan, Timor-Leste and Zimbabwe.</p> <p>These countries are considered fragile and conflict-affected areas according to the <a href="#">FY2024 List of Fragile and Conflict-affected Situations</a> and <a href="#">Global Conflict Tracker</a>.</p>
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	<p>In the FY2023, 83% of the company's revenue came from operations in conflict affected countries, including: Afghanistan, Syria, Democratic Republic of Congo (DRC), Iraq, Sudan, Ethiopia, Libya, Nigeria, Chad, Lebanon, Palestine, Yemen, Azerbaijan, Burkina Faso, Guinea-Bissau, Mali, Mozambique, Niger, Nigeria, Pakistan, Timor-Leste and Zimbabwe.</p>
<b>Impact on Stakeholders</b>	<p>Business activities located in conflict zones are considered high-risk as they are more likely to cause or contribute to the conflict and/or sociopolitical instability.</p> <p>Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's collaborators and other potential human rights violations are potentially at risk.</p>
<b>Implemented Management Practices</b>	<p>The company is aware of these potential risks that could potentially affect its work and has a variety of good management practices in place relevant to this scope (e.g. Anti-Corruption clauses in its contracts with local partners) and has relevant internal policies and training for its personnel. The medical solutions are mostly procured through UN(-related)</p>

	organizations, which in itself also have good management practices in place to prevent corruption and unlawful practices and to ensure that there are no ties to any conflict itself.
<b>Report</b>	<a href="#">Annual Impact Reports</a>
<b>Management Comments</b>	<p>Delft Imaging is a social impact company in the healthcare field. Our specialization in tuberculosis screening and maternal health brings us frequently to countries identified as conflict zones, because of the health burden these countries face. We believe that while these countries can pose various challenges, these are also the countries where our solutions can have the biggest possible impact.</p> <p>Because our portfolio of solutions aims to eradicate tuberculosis and helps strengthen local healthcare systems, it only positively impacts the living situation in conflict-burdened areas. The nature of our business - health - does not in anyway contribute to conflict or instability, but rather contributes positively to the living situation of the local population of these countries. Moreover, the majority of procurement of our solutions is via United nations (and UN-associated) organizations such as the International Organization for Migration (IOM), whose activities are also in these conflict-burdened areas. These organizations also strive with us for the same goals: the eradication of tuberculosis and the strengthening of health systems. These organizations also have extensive procedures and policies in place to validate the quality of goods that are to be procured, as well as the fairness of these processes through which these are procured.</p>
