## OUR MISSION

---

### WE WILL ALWAYS BE ETHICAL

**We fight for healthy, nourished skin and a happy planet. We are both science and nature, every product we make is packed with love, passion and considered ingredients.**

We are passionate about being good to our planet, we will always be kind to it and celebrate its natural, enriched ingredients. We will never compromise on quality and our commitment to effective innovation and kindness to all TanKind is our business integrity.

To us, people and the planet come first before margins, and our team is dedicated to delivering a little bit of sunshine in every bottle. Our products are packed with goodness and our people packed with kindness and gratitude.

Making a real impact by spreading kindness and giving back to the planet with every product we make

### ETHICAL

All of our products are made to be as ethical as possible from supply chain to shelf.

### CERTIFIED

We back up all of our claims with certifications so our customer knows they can trust us.

### IMPACTFUL

Through various initiatives, we give back to the planet with every product we make.

"At The Kind Brand Company, every step we take is designed to respect our people and our planet. As pioneers in beauty, we recognise the magnitude of the industry's plastic problem and we acknowledge our responsibility to clean up after ourselves.

We can help make a difference, and working with our recycling partners in India gives us the opportunity to make a significant impact on the planet and its people."

*Noelle O'Connor*

FOUNDER OF THE KIND BRAND CO.

# OUR PURPOSE

We work directly with a recycler in India. We do not use plastic credits. **This means that for every TanOrganic bottle we sell, we're removing and recycling 1lb of plastic from the ocean.** Essentially, it only takes one TanOrganic purchase to remove 27 plastic tan bottles from the environment!

## 1. MEASURE

For every bottle we sell we pay for the collection and removal of low value plastic from the environment.

## 2. IMPACT

We have direct impact by empowering waste workers with fair wages to tackle waste by collecting and ethically disposing of this low value, noncommercially viable plastic.

## 3. REDUCE

We eliminate this waste completely from the environment by turning the collected waste into large blocks that are used as fuels in a cement factory.

The cement factory has a 2 stage burner where in the second stage the emissions are burst off without being released back into the atmosphere. All that remains from the bricks are ashes which get mixed back into the cement. There is no by product and a complete re-use of energy.

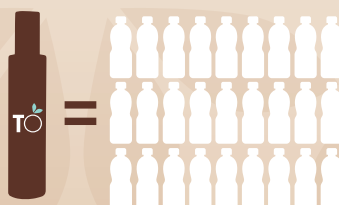

## SUPPORTING WASTE WORKERS

We are adding a crucial income stream for waste pickers and their families in Goa.

Through this initiative, TanOrganic is boosting these waste workers' income by attaching value to hard-to-recycle plastics, while supporting experienced recycling social enterprises who holistically uplift ex-waste pickers through occupational safety, health insurance, and skills training.

## OUR CERTIFICATIONS

All TanOrganic products are free from animal ingredients & animal GMO's and none of our products are tested on animals. The Vegan Trademark has been helping users identify that a product is free from animal ingredients since 1990.

TanOrganic has received a top-ranking Ethical Company index score of 100 from The Good Shopping Guide, which demonstrates our ethical commitments. Only 7 beauty brands in the world have a score of 100.

TanOrganic believes that beauty products should be cruelty-free, and we are proud to be Leaping Bunny approved. Leaping Bunny is a global program that requires cruelty-free standards which are over and above legal requirements

TanOrganic is the first and only Eco Certified tanning brand in the world. To gain the certification, TanOrganic had to pass a rigorous process that consisted of an independent body assessing the conformity of our products and services with environmental and social requirements specified in a standard.

We use only the best, 100% natural and organic ingredients that are free from all synthetics, parabens, and toxins. The Organic certification verifies that farms or handling facilities comply with the organic regulations.

# REFILLABLE BRONZER

10G | 0.35 OZ

Create a sun-kissed glow & a flawless bronzed finish. Ideal for enhancing skin tone or accentuating an existing tan, it's perfect for everyday wear and all skin tones.

MAXIMUM FLAWLESS COVERAGE

BRONZED LUMINOUS FINISH

HIGHLY PIGMENTED

TanOrganic's Refillable Bronzer replaces talc with corn starch, which does not dry out your skin or cause blackheads. It also replaces C&D Red Dyes which are commonly used in cosmetics with mineral colour that won't irritate sensitive skin. Enriched with rosehip oil and sweet almond oil, the bronzer will nourish as it brings out your inner glow. A bronzer so clean it practically whispers sweet nothings to your pores. The bronzer is non-comedogenic and suitable for people with sensitive or compromised skin.

## REFILLABLE & SUSTAINABLE

For easy top up, the bronzer pan pops out of the luxurious gold component

## SWEET ALMOND OIL

A lightweight oil, easily absorbed into the skin, moisturises & nourishes, reduces inflammation and improves texture and appearance.

## ROSE HIP OIL

Moisturises the skin as well as providing beneficial fatty acids that soothe and strengthen the skin's barrier.

# DAILY DEFENCE TINTED FACIAL SPF 50

NATURAL GLOW

50ML | 1.69 FL.OZ

SPF is the single most purchased personal care product in the world. TanOrganic SPF is Certified Organic, Vegan, Cruelty Free, Reef Safe, and is Eco-Friendly. It's tested to 40 minutes water resistance, 3-year shelf life, and SPF 50 tested to FDA / TGA requirements.

We use a patented ECOCERT approved Organic ingredient and are NSF/ANSI 305 for the USA. We are a Non-Nano Sunscreen. TanOrganic SPF is 100% Octinoxate & Oxybenzone Free offering broad spectrum UVA/UVB protection.

But it's not just a daily broad-spectrum SPF, it's also a primer, with a natural tint and dewy finish that dispels all worries about the dreaded chalky white look or photo flashback that's become all too familiar with SPFs of the past. It's non-comedogenic, and non-greasy.
