

## **DISCLOSURE MATERIALS**

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE CATEGORY	Penalties, Sanctions or Fines
ISSUE DATE	2017 - present
торіс	The company has received various sanctions from their client, the Government of Buenos Aires, in relation to their waste collection services.
SUMMARY OF ISSUE	The Government of Buenos Aires, who is a client of the company, issued fines against them for the following issues: lack of waste collection from containers after hours, delay in the maintenance of the GPS reading and ID TAGs devices of the trucks, unemptied waste paper contrainers and lack of manual sweeping.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	Over the past five years, the company has received fines that amount to a total of 10% of the company's 2020 revenue.
IMPACT ON STAKEHOLDERS	Poorly delivered sanitation services can result in negative impact to the surrounding public.
RESOLUTION	As a resolution to the fines, the company ensured collection of the waste bags outside the container, installed ID TAG devices in the containers to control the emptying by reading said device with the antenna installed on the truck, implemented a 24-Hour Monitoring Center for the GPS tracking of the trucks assigned to the routes, and implemented the maintenance of the GPS equipment and the reading of TAGs of the trucks.
IMPLEMENTED MGT PRACTICES	The Operations Manager conversed with the Superviser and employees to reduce the risk of reoccurence. The company also performend checks on the route to ensure the quality of the service. Where the company confirms that waste was not properly collected, they request a sanction. The company trained employees in regards to the importance of completing all the services included in their client contracts.
REPORT	All reports are presented to the GCABA (Gobierno de la Ciudad de Buenos Aires) and its inspections areas.
OTHER MGT COMMENTS	Throughout the Relationship Program with the Community, we visit the neighbors affected by the lack of services. We regularly consult with the users of the services in our operating zone to receive feedback of our work and give advice for a better use of the services we provide.
