

Phyto-Therapy Pty Ltd

Disclosure Report

Date Submitted: October 2nd, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☒	☐
Biodiversity Impacts	☒	☐
Chemicals	☐	☒
Disclosure Alcohol	☐	☒

Business in Conflict Zones	☐	☒
Child or Forced Labor	☐	☒
Negative Environmental Impact	☐	☒
Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Cannabis Related Products

Topic	The company sells hemp-based products
Summary of Issue	Phyto-Therapy manufactures and supplies organic powder ingredients. One of the company's product is Hemp Protein Powder (PhytoHemp™) which is made out of hemp seeds. The protein is suitable for human consumption. The company is not involved in the sale of medicinal or recreational marijuana products.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	0.2% of the company's revenue comes from the sales of Hemp Protein.
Impact on Stakeholders	Cannabis-related products are subject to controversy both because of their current and historic legal status around the world, as well as concerns about the potential harm that the products may cause. Current regulations governing the legality of cannabis-derived products are complex and vary widely by local jurisdiction.
Implemented Management Practices	All of the Phyto-Therapy products comply with applicable laws and regulations in Australia. Hemp or industrial hemp is defined as a cannabis plant that contains 0.3% or less THC, which is different to marijuana. Under Food Standards in Australia, low-THC hemp is considered a food. As part of the company's supplier quality control program, suppliers are required to test the total THC level of hemp seeds and hemp protein as per specification. The company had also conducted continued testing of the Total THC level in hemp protein powder at the beginning, working with the supplier; based on satisfactory results, the company decided batch testing is no longer required.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Animal Products and Services

Phyto-Therapy Pty Ltd is involved in the production or sale of animal products and services, meaning that they are more likely to have significant impacts on the environment and animal welfare. Certified B Corps are required to make transparent their involvement in such industries.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Biodiversity and/or Monoculture

Phyto-Therapy Pty Ltd is involved in activities that could affect local biodiversity, meaning that they are more likely to have significant impacts on the environment given its interference with the balance of local fauna and flora. Certified B Corps are required to make transparent their involvement in such practices.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Water Intensive Industry

Phyto-Therapy Pty Ltd is involved in the production/sale of products, or is part of an industry that can potentially be classified as water-intensive, meaning that they are more likely to have significant impacts on the environment, such as water stress or depletion of local water sources if water use is not appropriately managed. Certified B Corps are required to make transparent their involvement in such activities or industries.
