**2021 Aggregated Scoring Methodology Summary**

### **Alquería and its Subsidiaries**

As the B Corporation Certification is a company-level certification, the assessment of a Parent Company is required to include its subsidiaries in which it owns >50% of the shares and has controlling interest. Depending on the operations of the certifying company, Parent Companies may roll up their subsidiaries into a single assessment or assess separately.

Parent companies and their subsidiaries that were included in the scope of certification, and share the same name as the certified parent, may use the B Corp logo with regards to the certified parent's brand. Only Certified B Corps that have met the performance requirement (ie. 80 point bar) may use the B Corp logo with regards to their specific entity.
