

Libélula Gestión en Cambio Climático y Comunicación

Disclosure Report

Date Submitted: March 6th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒
Biodiversity Impacts	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Others - Clients in Controversial Industries

Topic	Company serves clients in Controversial Industries
Summary of Issue	Libélula Gestión en Cambio Climático y Comunicación is a consulting company that focuses on providing sustainability solutions. The company offers services such as Carbon Footprint Measurement and Reporting, Networking Platforms, Training and Awareness, and Certification Consulting, among others, to clients in the Water Utilities, For-Profit Higher Education, Pharmaceuticals, Whole Life Insurance Products, and the Mining Industry. Their products can also be sold to non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	Around 12% of the company's revenue in fiscal year 2023 came from clients in controversial industries. • Clients operating in the water utilities industry represented approximately 0.8%. • Clients operating in the for-profit higher education industry represented approximately 0.32%. • Clients operating in the pharmaceuticals industry represented approximately 0.33%. • Clients operating in the whole life insurance products industry represented approximately 2.44%. • Clients operating in the mining industry represented approximately 8.12%.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company has implemented an environmental, anti-corruption, and ethical policy when working with clients in

	controversial industries. In addition, a sector review is performed to ensure that potential clients align with the company's mission and vision.
