

Secret Compass Ltd

Disclosure Report

Date Submitted: July 8th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒
Biodiversity Impacts	☐	☒
Chemicals	☐	☒
Disclosure Alcohol	☐	☒
Disclosure Firearms Weapons	☐	☒
Disclosure Mining	☐	☒
Disclosure Pornography	☐	☒
Disclosure Tobacco	☐	☒
Energy and Emissions Intensive Industries	☐	☒
Gambling	☐	☒
Genetically Modified Organisms	☐	☒

Business in Conflict Zones	☐	☒
Child or Forced Labor	☐	☒
Negative Environmental Impact	☐	☒
Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Conduct Business in Conflict Zones

Topic	Company operates in Conflict Zones
Summary of Issue	Secret Compass is involved in risk management for TV and film, enabling productions to tackle complex, high-stakes shoots in the UK and worldwide. Their expert team enables productions to continue shoots while ensuring safety through a proven risk management process. Syria, Afghanistan, Israel, Lebanon, Ukraine are listed as a conflict zone in Global Conflict Tracker . The company stated that they advise clients on the risk assessment process and they occasionally provide security / safety consultants to help them manage risk on location. The company only operates to support TV / news crews and journalists. As a result the company enables reporting from these conflict zones.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the last fiscal year, less than 5% of the company's revenues came from the conflict zones they operated from.
Impact on Stakeholder(s)	Business activities located in conflict zones are considered high-risk as they are more likely to cause or contribute to the conflict and/or sociopolitical instability. Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's workers and other potential human rights violations are at risk.
Implemented Management Practices	Secret Compass developed policies on Hostile Filming Protocols and Security Filming Protocols. These documents are in depth pieces of work that assesses the historical and current situation, the likelihood and risk of incidents occurring, the management strategies in place whilst operating in these locations, and the mitigations in place to reduce the residual risk down to a tolerable level. They also have a well structured safety plan and antibribery/corruption policy developed.
