Disclosure Report

Date Submitted: April 23rd, 2026

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Bottled Water

The current B Corp Certification assesses a company's risk (potential negative impacts) separately from its positive impacts. B Lab's risk standards are additional minimum requirements that companies in controversial industries and/or practices must meet in order to be eligible for B Corp Certification under V1.6. Risk standards are a necessary method to maintain credibility, manage risk, and achieve the impact B Lab seeks in the world.

Broderick Group Ltd is directly involved in the Bottled Water Industry, an industry that B Lab requires additional minimum standards. During this assessment, it was confirmed that Broderick Group Ltd fully meets the minimum requirements for the Bottled Water industry as outlined in the [Guidance for Eligibility Concerns and Minimum Requirements under V1.6](#) link.
