

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

	Cincinnous autally, Internative Individual
DISCLOSURE QUESTIONNAIRE CATEGORY	Environmentally Intensive Industries
TOPIC	Energy and Emissions Intensive Industry
SUMMARY OF ISSUE	As a building operations and construction company, Shift Capital operates in an industry in which energy and carbon emissions is a material environmental issue.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	100% of the company's revenue is derived from building and construction.
IMPACT ON STAKEHOLDERS	The construction industry is a major contributor to global carbon emissions.
IMPLEMENTED MGT PRACTICES	In each of the company's building renovations, tenant fit-outs or new construction projects, energy efficiency is a top priority for Shift Capital. The company implements retrofits to boost increase energy efficiency in the future use of the building which meet rising efficiency standards. Three areas of particular focus for retrofits include heating, ventilation, and air conditioning systems (HVAC), lighting and water use. Closely related to the retrofitting of these operational systems is electrification considering that heating oil and gas are significant contributors to building emissions. The company is currently working on a 100-acre parcel development in Ithaca, NY, for which it is working closley with the city, county, and state on a carbon-neutral strategy for the redevelopment that may include innovative green hydrogen production, geothermal heating and cooling, and heat pump technology.

PROVIDED BY: Shift Capital UPDATED AS OF: 09/29/2022

DISCLOSURE QUESTIONNAIRE CATEGORY	Environmentally Intensive Industries
TOPIC	Water Intensive Industries
SUMMARY OF ISSUE	As a building operations and construction company, Shift Capital operates in an industry that is water intensive.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	100% of Shift Capital's revenue comes from the building and construction industry which as a whole is considered water intensive.
IMPACT ON STAKEHOLDERS	As a water intensive industry, the construction industry poses risks such as water stress or depletion of local water sources if water use is not appropriately managed.
IMPLEMENTED MGT PRACTICES	The company's projects have primarily focused on renovating vacant buildings, and the greatest impact on water sources is that used by tenants, the water used to manage the building and the surrounding area. Shift Capital does not operate in a water stressed area and uses city-provided water in each neighbourhood and city it works in.
