RESPONSIBLE

Responsible supply and manufacture are at the heart of what we do. We started in 2006 to provide alternative solutions to single-use plastic products and we have never strayed from our core beliefs. Certified B-Corp status is an endorsement of our commitment to doing things properly.

Certified

This company meets the highest standards of social and environmental impact

Recycled Stainless Steel

Recycled stainless steel employs up to 80% less energy than virgin stainless steel.

Recycled Ocean-Sourced Plastic

Our new caps are made from ocean-sourced recycled polypropylene. This undergoes the same rigorous quality and chemical testing.

Zero single-use plastic supply chain

Zero plastic packaging since 2006. Furthermore, we don't use single-use plastic packaging throughout our supply chain

100% Recyclable

Cradle to cradle - our bottles can be 100% recycled

1% sales to climate support

We donate 1% of global sales to carbon renewal

1kg of plastic removed from ocean for every bottle

We work with Plastic Bank to recover 50 single use plastic bottles from the environment for every single bottle we sell. This also provides an income for plastic collectors in the World's poorest regions

Carbon neutral shipping

All product is shipped by sea on slow routes to our warehouse.

SOCIAL & ETHICAL COMPLIANCE

BSCI Member, SEDEX Certified

BSCI and Sedex certified manufacturing. Our factory is tested and meets regulations for the following measures to ensure Social Responsibility is at the core of the business:

1. Rights to freedom and collective bargaining
2. No discrimination
3. Fair remuneration
4. Decent working hours
5. Occupational health and safety
6. No child labour
7. Protection of young workers
8. No precarious employment
9. No bonded labour
10. Protection of the environment
11. Ethical business behaviour

CERTIFIED B-CORP

Certified B Corporations are leaders in the global movement for an inclusive, equitable, and regenerative economy.

PLASTIC BANK

Plastic Bank is a global bottle deposit program that helps end poverty and stops plastic pollution.

Collection members exchange plastic for money, social benefits, and beyond. Collected bottles are returned as recycled feedstock to the circular economy.

ZERO PLASTIC PACKAGING

Zero plastic packaging since 2006. Zero single-use plastic production line. Zero single-use plastic packaging supply chain and logistics.

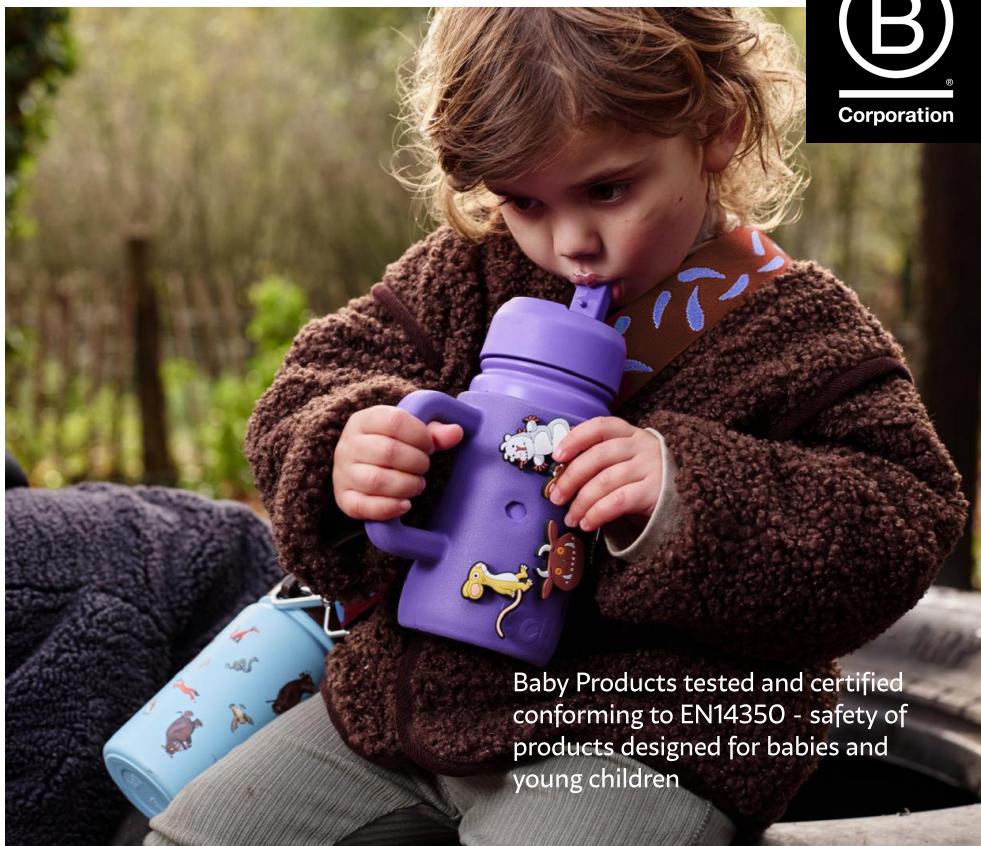

CERTIFIED SAFE

BPA/BPS/BPF and Phthalate Free

Lead & Toxin Free

All of our products are certified and meet the highest levels of product safety so that you can feel confident that you and your family's drinks are 100% free from toxins.

Your body is composed of more than 60% water. We think it is essential to ensure that water is certified safe! Never drink from plastic water bottles. Beware of plastic bottles that claim to be BPA free - they possibly contain BPS or BPF that are equally damaging

Baby Products tested and certified conforming to EN14350 - safety of products designed for babies and young children

CERTIFIED LFGB inc EU 10:2011

CERTIFIED FDA

MEETS EN12546-1

REACH Compliant

Baby Products EN14350 Certified

- Stainless Steel Pro Grade 304 or 18/8
- All tested and certified FREE FROM LEAD and other Heavy Metals and Toxins
- Since 2023 using lead free glass vacuum beads in production
- Certified compliant to LFGB food Safety and FDA Food safety protocols
- Certified free from BPA/BPS and Phthalates.
- All products certified meeting LFGB food grade safety
- All products tested and certified to Eu Regulation 10/2011 - show NO presence of harmful plastic toxins BPS/BPS or Phthalates
- All products tested and certified compliant with FDA food safety tests
- All products carry LFGB Food safety symbol
- Certificates at the end of the brochure

CERTIFIED SAFE

What are BPA/BPS/BPF and Phthalates?

Bisphenol-a, Bisphenol-s, Bisphenol-f and Phthalates are all plasticisers, chemicals used to make plastic more flexible. These chemicals are all endocrine disruptors. The USA National Library of Medicine contains an in depth and balanced study into the dangers of this group of chemicals*

onegreenbottle only uses Polypropylene plastic (PP5) for caps.

Polypropylene does not contain any of these chemicals (certified free of all trace), it is chemically inert and it is the most successfully recycled plastic.

Interferes with Hormone Feedback System ¹²	Difficulty Fighting Infections ⁷ Increased Risk of Allergies ⁷	

MANUFACTURING RESPONSIBLY

ISO9000, ISO14001, BCSI & SEDEX

Certified to ISO9001 - The International Quality Management Standard

ISO 14001 is the International Standard for Environmental Management Systems (EMS), a framework that helps organizations design, implement, and improve their environmental performance. It provides a structured approach for managing environmental aspects and impacts, ensuring legal compliance, and demonstrating a commitment to sustainability.

BSCI (Business Social Compliance Initiative) is a global initiative promoting ethical labour practices and working conditions to ensure human rights due diligence and environmental protection in their supply chains, aligning with internationally recognized principles. The BSCI uses a strong code of conduct based on 11 principles, including fair remuneration, no child labor, and protection of young workers, to help companies monitor, engage with, and support sustainable trade.

EXECUTIVE SUMMARY:

TEST REQUESTED	CONCLUSION
Sensory Test (Odour and Taste) for Materials in Contact with Foodstuffs – EC No. 1935/2004 and § 30 and 31 LFGB	PASS
Overall Migration Test for Silicon in Contact with Foodstuffs – Council of Europe, Resolution ResAP(2004)5	PASS
Overall Migration Test for Plastic Materials in Contact with Foodstuffs – Commission Regulation (EU) No. 10/2011, Commission Regulation (EU) No. 2020/1245 and Its Amendments	PASS
Specific Migration of Heavy Metals for Plastic Materials in Contact with Foodstuffs – Commission Regulation (EU) No. 10/2011, Commission Regulation (EU) No. 2020/1245 and Its Amendments	PASS
Specific Migration of Primary Aromatic Amine for Plastic Materials in Contact with Foodstuffs – Commission Regulation (EU) No. 10/2011, Commission Regulation (EU) No. 2020/1245 and Its Amendments	PASS
Peroxides Value for Plastic Materials in Contact with Foodstuffs – § 30 and 31 LFGB and BfR Recommendation	PASS
Volatile Organic Matter Content for Silicon in Contact with Foodstuffs – § 30 and 31 LFGB and BfR Recommendation	PASS
Extractable Matter Content for Silicon in Contact with Foodstuffs – § 30 and 31 LFGB and BfR Recommendation	PASS
Migration of Heavy Metals Contents for Metal in Contact with Foodstuffs – EC No. 1935/2004, § 30 and 31 LFGB and Council of Europe Resolution CM/Res(2013)9 and BfR Recommendation	PASS
Organotin content (Monobutyltin, Dibutyltin, Tributyltin, Tetrabutyltin, Triphenyltin, Mono-octyltin, Di-octyltin) – § 30 and 31 LFGB and BfR Recommendation	PASS
Lead and Cadmium content	PASS
Polycyclic Aromatic Hydrocarbons (PAHs) Content - AfPS GS 2019:01 PAK & As Applicant's requirement	PASS

Note: The tested part of the sample was specified by client.

The test conclusion was given based on the results of tested part.
