

WPR Agency Ltd

Disclosure Report
Date Submitted: May 8th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	WPR Agency Ltd is a Public Relations and Communications agency that has had clients in the Zoos, aquariums, and animal parks industry. The nature of the company's services with clients in these industries has been related to Public Relations and Communications Services, all services can be sold to both controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The revenue from clients operating in the Public Relations and Communications Services industry represented 0.79% in FY22-23.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company does not work with companies whose main income is derived from the extraction of fossil fuels, mining of rare metals, tobacco, guns and ammunition, ultra-fast fashion or high-spend slot machines. Every potential new client is first vetted by WPR's Senior Leadership Team to assess whether it is a company the agency could work with. Factors considered include: the industry the organisation operates in; whether they are B-Corp registered; any ESG published commitments/statements, and any modern slavery statements, which are published as required by the Modern Slavery Act 2015.. The company does have a code of conduct but reviews and signs the client's code of conduct.
