WattValue SARL

Disclosure Report

Date Submitted: September 3rd, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Biodiversity Impacts	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Chemicals	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Nuclear Power Industry

WattValue SARL reported that it works in the Nuclear Power Industry. This sector carries potential risks to the health and safety of employees and local communities as well as potential risks to the environment, including water and soil pollution, habitat disruption, and thermal pollution, which may affect local ecosystems and communities. Certified B Corps must make their involvement in the industry transparent under their B Corp Profile.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Fossil Fuels

Issue Date	August 2025
Topic	The company manages energy contracts (business consultancy) for clients that come from both renewable and non renewable sources. WattValue also negotiates and manages contracts over their lifetime (pricing, consumption alerts, invoicing verification, optimisation).
Summary of Issue	WattValue offers contract negotiations services for electricity (renewable and non renewable) and gas. They also sell GOs or 'Garantie D'Origine' which are certificates for energy that guarantees its origin is from renewable sources.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The sale of Garantie D'Origine (GO) certificates constitutes 68% of the revenues, representing 100% green electricity. Unlike in previous years, no biogas was included in the negotiated volumes. Contract negotiations for electricity and gas accounted for approximately 30% of revenues. The majority of non-renewable electricity on the French grid is generated from nuclear sources.
Impact on Stakeholder(s)	<p>WattValue promotes the sale of green electricity and biogas. The use of these green energy sources is a voluntary action that comes at an additional cost to their customers.</p> <p>In the past, biogas represented one-third of the negotiated volume; however, for fiscal year 2024, this amount has fallen to zero due to the energy crisis. For green electricity, approximately 10% of the negotiated volume corresponds to green sources. Additionally, the company sells GOs for a total volume of about 300 GWh.</p>
Implemented Management Practices	The company has two types of customers: GO only customers and non GO customers. For the non GO customers, the company systematically proposes 25%, 50% or 100% GO in their contract and also promotes GO on their website. The company offer of "Garantie d'origine électricité" is featured on search engines and the company publishes articles and news on a quarterly basis to their customers. Since 2021, the company has offered near-real-time alerts and hourly electricity consumption monitoring to promote energy consumption

	reduction.
Report	Everything you need to know about renewable electricity High Environmental Value Electricity: definition.
Other Management Comments	The company has been active in green certificates since 2006. It was their main business for 6 years. They started with RECS certificates. This is part of their core values. They also worked with their office tenants to also use 100% green electricity.
