

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: Rising Sun Chile
Date Submitted: 10/14/2022

Industries & Products	Yes	No
Please indicate if the company is involved in production of or trade in any the following. Select Yes for all options that apply.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY:

Rising Sun Chile

UPDATED AS OF:

10/14/2022

DISCLOSURE QUESTIONNAIRE CATEGORY	Clients in Controversial Industries
TOPIC	The company served a client involved in alcohol-related industry and in the animal exploitation industry (zoo)
SUMMARY OF ISSUE	"Rising Sun conducts projects to evaluate the feasibility, and install and monitor solar panels for clients in different industries, including the alcohol-related industry and the animal exploitation industry (zoo). The services provided by the company support its clients to reduce the consumption of electricity, therefore, reducing the CO2 emissions."
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	In 2021, Rising Sun derived 6,88% of its annual revenue from clients in controversial industries.
IMPACT ON STAKEHOLDERS	Alcohol may have a negative impact on the health and well-being of individuals and their communities. Zoos may have a negative impact by keeping animals captive in an unnatural habitat, may provide inadequate care services, and may participate in the capturing of wild animals to be brought into captivity.
IMPLEMENTED MGT PRACTICES	"Rising Sun Chile Spa, as a company dedicated to the development, engineering, construction and maintenance of photovoltaic generation systems, manages within its business to mitigate or reduce the consumption of electrical energy of each client, which translates into generating a positive environmental impact in the reduction of carbon emissions and that each of our clients maintains within their production processes. The company is committed to providing the necessary training and support to each of its clients in the operation and maintenance of their photovoltaic solar systems, in order to generate a positive impact in the neutralization of their respective carbon footprint. The company's projects help its clients accomplish Chilean legislation. The company has quality management and environmental and work safety policies to ensure the services provided are safe and no harm to the environment. They do not have policies or procedures in place for carrying out due diligence of clients that they work with so as to ensure that the services provided by the company are not used for harming people and the environment."
MANAGEMENT COMMENTS	Adding new comments regarding the previous consultation, within the Chilean legislation each one of our clients before being able to carry out their business system must comply with a series of requirements of an environmental, social nature and among others those that are measured by means of a matrix of identification of aspects and environmental impact. which seeks to determine the type of significant impact that this industry will have, then as a company we help mitigate and/or reduce those negative impacts that these industries generated by their production process may generate. "Watching and fighting for the decarbonization of each client"
