

SOMA Public Relations

Disclosure Report

Date Submitted: April 23rd, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Others - Disclosure Industries

Topic	Company serves clients in Controversial Industries
Summary of Issue	SOMA Public Relations is a public relations boutique PR agency that provides services to clients in controversial industries such as charity lotteries. Their services can also be sold to non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	For the fiscal year 2023, the revenue generated from clients in the charity lotteries industry accounted for approximately 18% of the company's overall revenue.
Implemented Management Practices	SOMA Public Relations has participated in lottery campaigns to support various foundations and increase ticket sales. This strategic decision aligns with the company's mission and values, which aim to raise awareness and generate substantial support for health and wellness initiatives. Before engaging with new clients, SOMA researches their backgrounds through methods such as Google searches, network inquiries, and interviews with the client. This is done to ensure that the company's services are not used to harm people or the environment.
Management Comments	SOMA specializes in crafting and sharing its clients' stories, using its business platform to influence positive change and strengthen communities locally, nationally, and globally. The firm's expertise in sustainability further underscores its commitment to working with clients moving toward a cleaner and healthier planet, exemplified by campaigns that highlight environmental and health-focused initiatives.
