

Optix Solutions

Disclosure Report

Date Submitted: May 20th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	Optix Solutions is a digital marketing and creative agency. The company has had clients from the Bottled Water, Fossil-Fuels (including coal/oil sands), Whole Life Insurance and Industries at Risk of Human Rights Violations (jewelers) which are deemed controversial industries by B Lab. The nature of the company's services with the clients listed are related to Search engine optimization (SEO), Creative and Pay Per Click advertising (PPC). All of the company's services can be sold to both controversial as well as non-controversial industries, although it is tailored to meet client/industry needs.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the fiscal year of 2024, the company generated 2% of its total revenue from clients in the bottled water industry, 3% from clients involved in the whole life insurance industry and 4% from industries at risk of human rights violations. The company had last provided services to its client in the fossil-fuel industry in the year of 2023, and had generated a total of 0.26% of revenue from its clients in the industry for the year.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company has formal policy that outlines its position on working with clients in sensitive industries and its client review practice. The company recognises its responsibility to the communities it serves and seeks to avoid business activities that could have a

	negative impact on society or the environment. The Optix Solutions Ethical Business Policy ensures that the company does not engage in business relationships with companies, organisations, or industries that are involved in the following sectors: 1. Gambling and Betting 2. Arms Manufacturing 3. Zoos and Captive Animal Facilities 4. Prison and Detention Facilities 5. Breast Milk Substitutes 6. Defence and Military Services 7. Cannabis Products 8. Mining and Extraction 9. Loans and Financial Services 10. Tax Avoidance 11. Nuclear Power 12. Tobacco and Cigarettes As of 2023, Optix Solutions has ceased its working relationship with clients from the fossil fuel industry and does not intend to provide services to clients in this industry in the future. The formal policy states that the company would conduct regular reviews of its partnerships and business relationships to ensure compliance with the policy. Any exceptions to the policy must be approved by its executive management team. The policy is reviewed on an annual basis and updates are applied to the policy when necessary to reflect changes in the company's business environment and ethical standards.
