

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Vital Proteins LLC UPDATED AS OF: 08/29/2022

DISCLOSURE QUESTIONNAIRE CATEGORY	Disclosure - Consumer Protection
ISSUE DATE	23 January 2020
TOPIC	Advertising industry self-regulatory organization recommended discontinuing certain advertising claims on individual serving stick packs.
SUMMARY OF ISSUE	In 2020, the Better Business Bureau's National Advertising Division (NAD) recommended the discontinuation of certain advertising claims for Vital Proteins Collagen Peptide Single Use Dietary Supplement Stick Packs. The U.S. advertising industry founded the NAD as a system of independent industry self-regulation. The NAD reviews advertising challenges from businesses, trade associations, consumers, and on its own initiative. The NAD's review of the advertising claims at issue resulted from the NAD's own initiative and not a challenge from a competitor or consumer.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	The NAD's analysis focused on the advertising claim 'Perfect for on-the-go, each pack contains 10g of collagen for healthy hair, skin, nails, bones, joints and gut.' This claim was made in connection with Vital Proteins Collagen Peptide Single Use Dietary Supplement Stick Packs. Sales for the Vital Proteins Collagen Peptides Single Use Dietary Supplement Stick Packs
	represent 0.53% of annual revenue. Sales from collagen products accounts for 97.6% of Vital Proteins LLC's annual revenue.
IMPACT ON STAKEHOLDERS	The NAD recommended that the advertising claim at issue be discontinued. Vital Proteins disagreed with the NAD's analysis as requiring far more than the traditional 'reasonable basis' for the advertising claim. Vital Proteins also stated at the time that it was 'concerned that NAD has misunderstood and misapplied the scientific facts and studies in the record.' Nonetheless, 'due to its respect for NAD and the self-regulatory process,' Vital Proteins agreed to discontinue its use of the advertising claim at issue.
IMPLEMENTED MGT PRACTICES	The company has a responsible claims policy that includes ensuring that evidence to support claims is consistent with requirements of the FTC, FDA and Nestle Health Science.
	The company states on their website ""These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease. Results may vary. Various studies have suggested benefits following daily consumption of collagen for several months. Refer to product labels and vitalproteins.com for recommended serving sizes and for more information. https://www.vitalproteins.com/blogs/stay-vital/benefits-of-collagen
REPORT	https://bbbprograms.org/media-center/newsroom/nad-vital-proteins-claims
RELATED INCIDENTS (YES/NO)	The company has not received any similar complaints from agencies regulating advertisements over the past 5 years.

B Corp Certification - Disclosure Questionnaire Documentation

DISCLOSURE QUESTIONNAIRE CATEGORY	Disclosure - Consumer Protection Cont.
RESOLUTION	During the pendency of NAD's inquiry, the advertiser represented in writing that it had elected to permanently discontinue the express claims related to gut health (and, by extension, the reference to "digestion" in the implied claim). In its advertiser's statement, Vital Proteins stated that it will comply with NAD's recommendations. The advertiser further stated that it took issue with NAD's findings, but "nonetheless, due to its respect for NAD and the self-regulatory process, Vital Proteins will permanently discontinue its 'on the go' claim and will otherwise take NAD's recommendations into account in its future advertising.
MANAGEMENT COMMENTS	At Vital, we are confident in our robust, and growing, literature database, which is continuously reviewed by our internal claims substantiation team. We, in concert with our expert-led Medical Advisory Board, leverage the strongest science, disclosures, and disclaimers in our marketing and education materials, which are subject to the standards of FTC, FDA and Nestle Health Science
