

Prisum Healthcare

Disclosure Report

Date Submitted: August 11th, 2026

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☒	☐
Biodiversity Impacts	☐	☒
Chemicals	☐	☒
Disclosure Alcohol	☐	☒
Disclosure Firearms Weapons	☐	☒
Disclosure Mining	☐	☒
Disclosure Pornography	☐	☒
Disclosure Tobacco	☐	☒
Energy and Emissions Intensive Industries	☐	☒
Fossil fuels Gambling	☐	☒
Genetically Modified Organisms	☐	☒
Illegal Products or Subject to Phase Out	☐	☒

Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category:

During its B Corp Certification journey, **Prisum Healthcare** had the following topics flagged:

Animal Products or Services

Consumer Protection

Recalls

For more information about the company's practices regarding this (these) topic(s), please visit the company's webpage accessible [here](#).

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Pharmaceutical Industry Risk Standard (Food Supplements)

The current B Corp Certification assesses a company's risk (potential negative impacts) separately from its positive impacts. B Lab's risk standards are additional minimum requirements that companies in controversial industries and/or practices must meet in order to be eligible for B Corp Certification under V1.6. Risk standards are a necessary method to maintain credibility, manage risk, and achieve the impact B Lab seeks in the world.

Prisum Healthcare is directly involved in the Pharmaceutical Industry; an industry which B Lab requires additional minimum standards. During this assessment, it was confirmed that Prisum Healthcare fully meets the minimum requirements for the Pharmaceutical as outlined in the [Guidance for Eligibility Concerns and Minimum Requirements under V1.6](#) link.

Prisum Healthcare has published a Government Affairs and Political Engagement Statement, available at prisumhealth.com/en/code-of-conduct, setting out the company's approach to government affairs, lobbying/advocacy, and political activity. The statement confirms that Prisum Healthcare does not make political contributions or donations of any kind and does not engage in lobbying or advocacy activities on the company's behalf. It further describes the company's approach to responsible participation in professional and trade associations, together with the internal controls in place to prevent conflicts of interest among current and former personnel.

Prisum Healthcare is not engaged in research and development activities. Formulation, product development, and manufacturing of the Prohumano+ range are undertaken by its contracted manufacturing partner, ErgoPharma Ltd.; Prisum Healthcare does not hold rights to the underlying product formulations and has made no investment, internal or collaborative, in R&D activities. This disclosure requirement, which applies to companies engaged in research and development, is accordingly not applicable to Prisum Healthcare's current operations.

Prisum Healthcare's business spans two categories: medicines and food supplements. For medicines, prices are set in accordance with applicable legislation (fixed maximum selling prices). Food supplements, including the Prohumano+ range, are not subject to a nationally or internationally mandated pricing mechanism; for these products, Prisum Healthcare applies an internal pricing methodology based on objective business criteria, including procurement costs, prevailing market conditions, and competitor benchmarking, with the aim of keeping prices

accessible, fair, and sustainable. Prisma Healthcare's sales are limited to Romania and Greece, neither of which is classified as a low- or middle-income country; considerations of payer ability-to-pay across LMIC population segments are accordingly not applicable to the company's current markets.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

1. Intentional misrepresentation of practices, policies, and/or claimed outcomes during the [certification process](#), or
2. Breach of the core values articulated in our [Declaration of Interdependence](#) within the B Corp Community.
