

# Fall in love with **Bolsalea** *Embalaje ético y sostenible*

## *About us*

We are specialists in the manufacture and customization of ethical and sustainable packaging in paper and fabric since 2009. Specifically bags, garment bags and sacks for all types of products.

*Why we are different?*

## We believe in a better world

Companies are great agents of change and as such, at Bolsalea we feel that one of our purposes is:

- Generate inclusive employment.
- Break accessibility barriers.
- Make companies aware of the use of respectful packaging made in Spain while creating a positive impact on both the planet and people.

# How we do it?

## Respectful raw material

Since our beginnings in 2009 we have **opted for friendly materials** such as cloth or paper, recycled, biodegradable and compostable materials.

## Made in Spain

We have **always defended Made in Spain**, both for the product and the raw material whenever possible. In this way, we reduce the carbon footprint.

## Accessibility

At Bolsalea we think it is very important to **reduce the communication barriers** that deaf people have in their day-to-day lives, which is why our customer service provides services in sign language, or by video call with simultaneous subtitles.

We are the **first company in Spain** with a website accessible to non-hearing people.

## Produce only what is necessary

At Bolsalea we know that it is more sustainable to manufacture what we have already sold than to sell what we have manufactured.

For this reason, most of our products are manufactured on demand to avoid excess production.

# SLOW *manufacturing*

We believe in conscious production. Our paper and cloth bags made by hand by people with intellectual disabilities and at risk of social exclusion are made one by one by hand.

In this way, by making it by hand, energy consumption is reduced, which **helps companies** that choose this type of bag to **decarbonize** with real and reliable data.

## Social responsibility

A part of our paper bags are handcrafted by **people with intellectual disabilities**, they are the ones who fold the paper, put the cords, etc.

The fact of having a job improves their self-esteem and enhances their autonomy.

## Social responsibility

And as for our cloth bags, the vast majority **are handcrafted by women at risk of social exclusion.** They are women from a neighborhood damaged by drugs, sewing provides them with decent work, while at the same time they are an example of self-improvement in their environment.

They sew with great care in organic cotton, hemp, jute and other friendly materials.

And with the aim that the packaging has the  
minimum environmental impact, we  
manufacture to measure under the prism of  
ecodesign.

Below we show you just a little bit of how  
much we can do.

*Compostable paper bags* 🍷

*Thousands of shapes and sizes, always recyclable.*

*Both the inks and the paper are ecological.*

*Organic cotton and hemp are among our favorite fabrics.*

*We also love jute and recycled cotton.*

*The bags are an excellent option to wrap products in a conscious way.*

*GOTS certified cotton ensures that its production has been sustainable and under fair conditions.*

*Not only on paper, but also on fabric we can print in many colors.*

*Garment bags, hat covers, hats,... we sew the packaging you need.*

*Garment storage both in cotton and recycled fabric.*

betting on a

# POSITIVE *impact*

The companies that choose our inclusive bags receive the diploma "For a positive impact that certifies that they are companies that opt for packaging that improves lives and is respectful of the planet."

## Did you know?

Corporate bags are an effective communication vehicle since they are capable of generating numerous advertising impacts when walking through the streets, entering houses and being reused.

There are even major brands that have exclusively relied on their custom bags as their only form of advertising. Does any come to your head?

## Some brands that have trusted Bolsalea

**HUMANA**

**CAPRILE**

**% bizum**

**MANGO**

**Tahe**
