

**Danone France* (Specialized Nutrition,
Dairy & Plant-based, Waters & Beverages)**
Score Aggregation Methodology & Brand List

As the B Corporation Certification is a company-level certification, the assessment of a Parent Company is required to include its subsidiaries in which it owns >50% of the shares and has a controlling interest. Depending on the operations of the certifying company, Parent Companies may roll up their subsidiaries into a single assessment or assess separately.

Regardless of whether a Certified Parent Company's subsidiaries are assessed together or separately, only distinct subsidiaries that B Lab has determined independently meet the performance requirement for certification (i.e. score of 80+ points) are eligible to use the Certified B Corporation logo and refer to themselves as Certified B Corporations.

Aggregated Scoring Methodology

Danone France* (Specialized Nutrition, Dairy & Plant-based, Waters & Beverages) and its subsidiaries were required to be assessed in the B Impact Assessment and undergo a review by B Lab staff. The entities were divided into 7 assessments, and the overall score was calculated using a weighted average based on headcount.

The assessments are as follows:

1. Danone Produits Frais France
2. SAEME (Société Anonyme des Eaux Minérales d'Evian)
3. Blédina
4. Sojinal
5. Nutricia Nutrition Spécialisée
6. Volvic
7. Evian Resort

Based on the weighted average, they scored an overall 97.8 out of 200 total available points. The minimum verified score required for B Corp Certification is 80.

Brands

Brands that are not distinct operating subsidiaries included in the Parent Company's certification are not Certified B Corporations themselves but may use the Certified B Corporation logo if B Lab has determined they have independently met the performance requirement for certification. Otherwise, the Certified B Corporation logo shall only be used in reference to the brand as part of the Parent Company's certification.
