MBA Consulting Group Inc.

Disclosure Report

Date Submitted: June 2nd, 2026

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
2) Describe how the company has addressed this issue
3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through B Lab's Public Complaint Process. Grounds for complaint include:

1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's certification process
2) Breaches of the B Corp Community's core values as expressed in our Declaration of Interdependence

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☑
Biodiversity Impacts	☐	☑
Chemicals	☐	☑
Disclosure Alcohol	☐	☑
Disclosure Firearms Weapons	☐	☑
Disclosure Mining	☐	☑

Business in Conflict Zones	☐	☑
Child or Forced Labor	☐	☑
Negative Environmental Impact	☐	☑
Negative Social Impact	☐	☑
Other	☐	☑

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Tax Advisory Services

Topic	Consulting firm provides tax-related services to clients
Summary of Issue	MBA Consulting is a U.S.-based consulting firm that specializes in compliance, financial management, bookkeeping, and operational support for political organizations and nonprofit entities. The company's work involves administrative tax compliance activities such as: ● Assisting with payroll-related tax reporting ● Supporting the preparation of financial records required for tax filings ● Coordinating with external tax professionals or auditors ● Maintaining financial records used in nonprofit information returns and regulatory filings. Tax return preparation is primarily provided to nonprofit organizations, including entities operating under IRC Sections 527, 501(c)(3), and 501(c)(4), as well as a small number of related consulting firms and public benefit corporations. The company prepares a total of five business tax returns for organizations in related industries and also provides tax return preparation for employees as a de minimis benefit. Fees for tax preparation services are charged on a flat-rate basis according to the form or return type.
Size/Scope of Issue ***(e.g. $ financial implication, # of individuals affected)***	Tax-related services account for 2% of company revenue.
Impact on Stakeholders	Businesses have an obligation to contribute their share of taxes. This is because business exists within the context of society; its proper role is to serve society, not the other way around. Moreover, healthy businesses can only exist over the long term in a healthy society. A healthy society depends upon public expenditures made possible by taxes. These public expenditures benefit businesses in both direct and indirect ways. B Lab recognizes fair payment of taxes as a material business issue and has a Framework for Evaluating Tax Strategies for B Corp Certification.

Implemented Management Practices	MBA Consulting's services are consistent with the principles that (1) the amount of overall taxes paid over time appropriately reflects the actual amount of income generated by the client, and (2) the amount of taxes paid over time in each jurisdiction appropriately reflects the actual operations of the client in that jurisdiction. The company does not maintain a publicly available tax philosophy statement and does not utilize external tax advisory standards or certifications due to the limited scope of its tax-related services. Its client base consists predominantly of tax-exempt organizations engaged in charitable, social welfare, or political activities. Professional oversight is supported through adherence to U.S. Treasury Circular 230 requirements. The Director of Tax and Accounting is a Certified Public Accountant (CPA) subject to Circular 230 ethical standards, and her work is reviewed by the President and CEO, who is also authorized to practice before the Internal Revenue Service and subject to the same standards. Both individuals complete a minimum of four hours of annual ethics training and are required to uphold Circular 230 due diligence requirements. The company does not maintain specific policies addressing tax avoidance schemes or low-tax jurisdictions. The limited number of taxable entities served consists of one small business with an annual gross income below US$1 million and two public benefit corporations supporting nonprofit organizations. No tax services provided by the company involve low-tax jurisdictions. Potential conflicts of interest are managed through board-level disclosure requirements, with board members required to disclose and report any actual or potential conflicts. The company's public policy position in the tax area is limited and reflects its nonprofit-sector focus, including support for the Johnson Amendment, which restricts charitable and religious organizations from participating in political campaign activities on behalf of candidates for public office.
