Disclosure Report

Date Submitted: November 24th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Others - Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	Hammerfest is a marketing firm that has ongoing work with two brands managed by the Dutch State Lottery, an organization that reinvests profits back to society through charities and Sports Foundations. The service offered to these clients was the development of marketing campaigns and content; a service that can be offered to both clients in controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the current FY2023, clients in the Charity Lottery industry represented 16.5% of the company's total revenue. Revenue from this client in FY2022 represented 26.2%.
Impact on Stakeholders	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>
Implemented Management Practices	<p>The company has worked with any other clients operating in a controversial industry except for Charity Lotteries.</p> <p>Hammerfest has a position on working with companies operating in the Fossil Fuel Industry and has discontinued work with an airline as a result of this. As part of this commitment, the company also joined a local initiative named 'Fossiel no deal,' which aims to be an advocate for change in the Dutch advertising industry and to inspire agencies not to work anymore for the fossil industry.</p> <p>Hammerfest is working on a long-term campaign for NGOs emphasizing the negative effects of alcohol consumption and</p>

	<p>have also decided not to work anymore for alcohol brands.</p> <p>Moreover the company has been working on a long-term campaign for NGOs against the tobacco industry and have signed an official agreement with these NGOs that Hammerfest will under no circumstances work for the tobacco industry.</p> <p>When Hammerfest receives a new request from a prospective client, they conduct desk research on their activities and policies in relation to sustainability. Any concerns are raised during the introductory meeting with the potential client. New prospects are discussed by the board to decide on whether to move forward with an introductory meeting. If sensitive issues or controversy are detected, the company evaluates the client and industry risks against their mission: to create a more inclusive tomorrow through the work they create for their clients. The company is not open to working with any company that is not aligned with this mission.</p>
